01 · WI-FI

Get online

Connect to the network below. The signal is strongest in the living room, next to the router.

NETWORK

Calipso_Guest

PASSWORD

Villa-Calipso-26

ROUTER

Living room

Next to the TV

SPEED

600 Mb

Fibre

DEVICES

Up to 10

At the same time

If the signal is slow

1. Move closer to the router, which is in the living room.
2. Thick walls in the bedrooms can weaken it.
3. Restart the router by unplugging it for ten seconds.

02 · ACCESS

Door code

The keypad is on the right of the front door. Your personal code unlocks it from your arrival time until check-out.

1. We show your code in the app as soon as you finish check-in.
2. Type the code on the keypad and push the door.
3. If the keypad doesn't respond, press **#** twice and enter the code again.
4. Please don't share your code with anyone.

The spare key is in the key box to the left of the gate, in case you ever need it.
